Marital Status : Single
Driver's License : B
Military Status : Deferred(01/01/2027)

About Me

I am a frontend web developer. I want to advance my career in this direction and do work that I can be proud of. My area of expertise is frontend development, but I also have experience in the backend. I want to work on projects that are developed with current technologies, that can break out of the mold, and where I can always improve myself.

Technical Skills

Next js, Redux, React.js, Typescript, Javascript, Node.js , Express.js, MongoDB, SQL, Socket.io, RestApi
